As far as I know, we have not done the transmittal letter or compiled the OSDS and new development rationales as one package. We did update all of the rationales for interim decisions on the staff level. Do we want to transmit all of them or just OSDS and new development?

Jayne

“Tech Team will draft interim approvals for OSDS and New Development letter.”

...didn't we already do this? The interim approvals, not the transmittal letter. I am happy to draft the transmittal letter for these interim decisions.

OR CZARA Tech Team Meeting

Oct 28 at 10 AM WA/OR or 1 PM DC

Non-Responsive or Dave's Office

Agenda

- Updates & Status; Action Items Review
- Agricultural MMs
- Communications/Briefing Materials for Mgt
- Agenda for Oct 30th Managers Meeting
- Action Items/Next Steps

October 21 OR CZARA Tech Team Call

Action Items

- Allison will incorporate outstanding pieces and Jayne will send the *decision/finding document and response to comments document* to the tech, legal and management teams for their review on October 22. *Completed. See 10/22 Manager Mtg Action Items & Decisions Email.*
- Jayne will review the *state submittal to determine if there are comments contained within* and whether any of those comments are already addressed or need to be added to the response to comments document by COB on Oct 15.

- Tech Team will begin working on management support documents such as talking points, powerpoints and roll-out/communications plan (using previous versions as models) for January 30 decision. Allison will develop the initial draft of the rollout plan and the three things memo and share with the team.
- Tech Team will draft interim approvals for OSDS and New Development letter.
- Tech team will address comments received by legal and management teams between Nov. 10th and Wed. Nov. 26th.
- Allison will share the roads and pesticide rationales and RTC with NMFS since they have not had a chance to review those yet.

Decisions

- Make sure NOAA/EPA's questions asked and comments on agricultural MMs received during the public comment period are included in the Response to Comments document but use a general language* as shown below as the response. Send separate correspondence to Oregon outside of this decision (but as soon as possible after Jan 30) on concerns on ag MM and possible ways to address them.
- No need to classify the state submittal as a comment or not. Instead will make sure that all comments contained within the state's submittal provided during the comment period are reflected in the response to comments.

**Potential wording in Response to Comments document: "NOAA and EPA invited public comment on the adequacy of Oregon's programs and policies for meeting the 6217(g) agriculture management measures and conditions placed on Oregon's Coastal Nonpoint Program. The federal agencies appreciate the comments received and will consider them closely. However, the December 20, 2013, proposed findings did not propose a specific decision on whether or not Oregon had satisfied the CZARA 6217(g) agriculture management measures. Since the public did not have an opportunity to comment on a specific proposed decision and rationale for that decision, the adequacy of Oregon's agriculture programs is not a basis for the final findings that Oregon has failed to submit an approvable coastal nonpoint program. The public will have an opportunity to comment on NOAA and EPA's proposed decision regarding the agriculture management measures at a later date."*

Upcoming CZARA Tech Meetings

November 4 at 10 am/1 pm

November 18 at 10 am/1 pm

November 25 at 10 am/1 pm
